

# **10 Gigabit Multimode Optical Module Product Introduction**

## Overview

---

SR Cisco SFP+ refers to 10GbE short-range optical transceivers designed for multimode fiber networks. These modules follow the 10GBASE-SR optical standard and are optimized for short-distance high-speed connectivity within data centers. Our Cisco, HP and Brocade ready 10GBASE-SR Multimode SFP+ Modules feature low power consumption (<800mw) using Duplex. 10G SFP+ Optical Module is a type of SFP+ transceiver that supports 10 Gigabit per second (10Gbps) data rates and is an enhanced version of the standard SFP (Small Form-factor Pluggable) transceiver.

## 10 Gigabit Multimode Optical Module Product Introduction

---

### Introduction of Cisco 10G SFP+ Modules

Cisco 10G SFP+ modules are optical devices intended for 10 Gigabit Ethernet deployments in diverse networking environments. They offer customers
