

10G Enterprise-Grade Optical Router OEM

Overview

10GBASE-SR SFP Module Enterprise Class delivers 10 Gbps short-reach connectivity over multimode fiber for enterprise networks, offering vendor-validated interoperability, consistent optical performance, simplified procurement, and 24/7 reliability—ideal for data-center ToR/EoR. Enterprise-grade home routers with 10GbE ports deliver the throughput that power users, home lab enthusiasts, and small business owners need. These routers pack professional networking features into devices designed for residential environments, offering 10Gbps wired connections alongside modern. Designed for maximum performance, Route10 includes four autosensing Ethernet ports that support up to 2. Delivering 10 Gbps over MMF up to 300 meters at 850 nm with LC duplex connectivity, it is ideal for top-of-rack, aggregation, and short-reach data center interconnects. Professional 10Gbps Wired Routing - Route10 is a high-performance 10 Gigabit wired router designed for advanced home, business, and enterprise networks; it does not broadcast Wi-Fi, and wireless coverage requires pairing with one or multiple Wi-Fi access points such as ceiling, wall, or outdoor.
