

144 Optical Cable Detachment

Overview

This 144C modular ODF is composed of 12pcs pre-loaded 12C splicing and patching unit that includes FC/SC/ST/duplex LC compatible adaptors, pigtails and 12 core splice tray. Integrated design provides OSP cable fibers and pigtail splicing, patch-cord termination and storage. Corning FREEDM® loose tube gel-free interlocking armored cables are flame-retardant, indoor/outdoor, riser-rated cables for interbuilding and intrabuilding backbones in aerial, duct and riser applications. Although Belden makes every reasonable effort to ensure their accuracy at the time of this publication, information and specifications described here in are subject to error or omission and to change without notice, and the listing of such information and specifications does not ensure product. Cable shall contain 144 singlemode fibers and be flame rated for indoor spaces that require compliance with riser, low smoke zero halogen, and E B2ca-s1a-d1-a1, Florida vice by email: cs@pa144Core modular optical fiber distribution frame is used where termination and connectivity of 144fibers (high density) is required.

144 Optical Cable Detachment

144 Core CST Fibre Optic Cable Flame Retardant Armoured Fiber Cable

Offers up to 288 core with different cable structure. This 144 core CST fibre optic cable has a corrugated steel tape CST and a CSM, flame retardant sheath.
