

144 Optical Distribution Box Description

Overview

This 144C modular ODF is composed of 12pcs pre-loaded 12C splicing and patching unit that includes FC/SC/ST/duplex LC compatible adaptors, pigtails and 12 core splice tray. Integrated design provides OSP cable fibers and pigtail splicing, patch-cord termination and storage. The ORM 144 optical distribution box is designed for the placement of 144 optical connectors in both indoors and outdoors. Capacity of 144 optical connectors Connector holder SC, E2000 SAFeTNET cassette system Maximum number of modules: 6 Placement of optical fiber reserve, length 6 m Cable holder. It is mainly used for cable inlet, grounding and fixing and the splicing between the terminal end and pigtail. generally the OCC/ODC/FDT consists of several part, like integrated splicing unit, PLC.
