JEGS Headlight Wiring Pigtails

JEGS headlight pigtails are available in 2 or 3-wire style to work with most sealed beam style headlights. Use the 3-wire connector for most combination high & low beams and the 2-wire connector for high

[Read More](#)

Beam splitter

By using high-quality dielectric coatings on optical substrates, the beam splitter offers precise control over the ratio of reflected to transmitted light. This makes it ideal for applications that require precise

[Read More](#)

Polarization Beam Combiner/Splitter (PB und NPB)

This device can be used either as a polarization beam combiner to combine light beams from two PM input fibers into a single output fiber, or as a polarization beamsplitter to split light from an input fiber
