

# 2024d Switch Convergence

## Overview

---

The SWH-2024D is a high-performance Fast Ethernet switching hub with 24 ports capable of 10 or 100Mbps auto-negotiation operation. It supports port trunk and virtual LAN, and is ideal for micro-segmenting large networks into smaller subnets for improved performance. The D-Link DGS-1024D 24-Port Unmanaged Gigabit Switch offers an economical way for SOHO and Small-to-Medium Businesses (SMB) to take advantage of Gigabit Ethernet speeds while reducing energy consumption and minimising noise output.

## 2024d Switch Convergence

---

### Circuit-level convergence of electronics and photonics

The circuit-level convergence of electronics and photonics has just started. EPHIC with multi-dimensional signals, multiple parameters, multiple material platforms, and nonlinear photonics
