40Ge optical port optical module Ic

Overview

The QSFP+ module is designed for use in 40GBASE Ethernet throughput up to 10km over single mode fibre (SMF) using a wavelength of 1310nm via duplex LC connectors. The Cisco ® 40GBASE QSFP (Quad Small Form-Factor Pluggable) portfolio offers customers a wide variety of high-density and low-power 40 Gigabit Ethernet connectivity options for data center, high-performance computing networks, enterprise core and distribution layers, and service provider.

- 40G LM4 transceivers provide 40Gb connections over a single pair of duplex OM3/OM4 MMF or SMF.

THE IT PRO'S CHOICE: Designed and built for IT Professionals, this SFP module is backed for life (lifetime of module, not network switch), including free lifetime 24/5 multi-lingual technical assistance.
