

72-core optical cable with 6 bundles and 12 cores

Overview

With 6 bundled breakout groups, each containing 12 fibers, this 2-meter pigtail enables efficient installation and clear fiber management in FTTH, FTTx, and data center applications. The yellow jacket identifies single mode fibers, ensuring compliance with industry standards. SC/UPC 72-core OS2 breakout fiber optic pigtail with 6 bundled groups, 2-meter length. Factory-terminated connectors provide low insertion loss and high signal stability. JTOPTICS® 72 core MPO/MTP Trunk Fiber Optic Cable ribbon and trunk multi-core cable assemblies facilitate rapid deployment of high-density backbone cabling in data centers and other high fiber environment, reducing network installation or reconfiguration time and cost. At 2 meters long, it supports high-density CATV, LAN, WAN, telecom networks, and testing applications.
