

ADSS Fiber Optic Cable Laying Process

Overview

This guide provides general recommendations for the selection of methods, equipment, and tools for the stringing of ADSS (All Dielectric Self-supporting) fiber optic cables including short and Long Span ADSS cables. Issues related to installing cables in the proximity of high voltage power cables are not discussed in this document. Since there are numerous practices which may be utilized, Prysmian has tested and determined that the practices described herein are effective and efficient. This Installation Manual is a recommendatory installation document provided by HANGZHOU ZION COMMUNICATION CO.
