Three-quarters of AI's economic gains are being captured by

It finds that nearly three-quarters (74%) of AI's economic value is captured by just one-fifth (20%) of organisations, revealing a stark and widening divide between a small group of AI

A Jargon-Free Guide on How AI Server Architecture Works

Whether you're deploying AI in your business, tinkering with a project, or just want to understand the tech shaping our world, this guide discusses what
