

All Tubular Busbars

Overview

A tubular busbar is a hollow aluminium conductor profile that offers improved stiffness-to-weight and heat dissipation compared to solid bars. Tubular conductors are used where mechanical layout or thermal requirements favor a hollow cross-section. Aluminium offers strong electrical conductivity at roughly half the weight of copper, with built-in corrosion resistance and full recyclability. What is an electrical bus bar?

An electrical busbar ("bus bar" or "buss bar") is a. Earthmet stock the UK's most comprehensive range of Tubular Busbars, Connectors and Insulators.

All Tubular Busbars

Tubular Busbar And Connectors , Copper And

We offer Copper and Aluminium Tubular Busbars in a range of sizes, as well as the accessories to suit 33kV, 66kV and 132kV substations.
