

# **American Industrial Switching Systems**

## Overview

---

Our industrial network switches include Layer 3/2 managed/unmanaged, PoE, DIN-rail, and Industrial 10G switches, ensuring seamless connectivity and easy installation in rugged conditions, with RSTP redundancy, and -40°C to +75°C operation. (AIS) is a leader in developing visualization, control and monitoring solutions including: military embedded computing, HMI touch-panels, rugged. When is a good time to contact you?

How did you find out about us?

Any comments, questions, or equipment inquiries?

Verify you are human, what is 7+1?

AIS expands their offering of open platform computing solutions for Industrial IoT and Industry 4. They facilitate applications in smart cities, buildings, transportation, factories and industrial companies and are deployed in water and wastewater utility management, oil and gas management.

## American Industrial Switching Systems
