

Anritsu Optical Time Domain Reflectometer MT9085A

Overview

The MT9085A-057 from Anritsu Corporation is a Optical Time Domain Reflectometer (OTDR) with Optical Wavelength 1310 to 1625 nm, Dynamic Range 32. ACCESS Master series is a compact handheld all-in-one tester for performing optical pulse tests, optical loss and power measurements, and optical fiber end-face inspections The ACCESS Master MT9085 series is a compact handheld all-in-one tester for performing optical pulse tests, optical loss/power. Large 8-inch enhanced display for easy viewing of results indoors or outdoors Enhanced usability, utilizing a combination of both touch screen and hard-keys Easy to understand graphical summary using Anritsu industry leading "Fiber Visualizer" ACCESS Master has met and exceeded the needs of. Compared with the previous line of reflectometers, the new Anritsu MT9085 series received a high-resolution touch. Anritsu MT9085 Optical Component Test Series information include price quotes, manuals, application notes, reviews, videos, forums, and more.

Anritsu Optical Time Domain Reflectometer MT9085A

MT9085B-053

The MT9085B-053 from Anritsu Corporation is an Optical Time Domain Reflectometer (OTDR) that operates at a wavelength of 1310 nm - 1550 nm. It has a pulse width of 3 ns - 20000 ns and sampling
