# **Applications of Dual-Core Fiber Optic Patch Cords**

## Overview

---

These short fiber optic cords connect transceivers, switches, patch panels, and servers. This guide walks you through exactly when, where, and why multi-core jumpers outperform simplex or duplex models— especially for FTTH aggregation, 5G backhaul, and hyperscale data centers. **What Is a Multi-Core Fiber Patch Cord?**

A multi-core patch cord (often MPO/MTP) contains multiple individual. At ZION Communication, we design and manufacture a full range of fiber patch cords for: This guide will help you quickly understand the main types of fiber patch cords and how to choose the right solution for your project - and how ZION can support you with stable quality, flexible customization. These assemblies are widely used in ODN distribution frames, data center racks, MDU risers, and fiber management systems where higher. They are generally sold in large quantities, rather than custom -made, although quite special models are also.
