

# **Automated Assembly Machine for Ceramic Flangers**

## Overview

---

The exclusive Parmigiani automatic flanging cycle is one of the key advantages of our flanging machines. With our system you will be in the best forming conditions for a powerful and accurate forming of a. Pipe to be flanged: Ø21,3 - 419,0 mm | 1 1/3" - 16 1/2" Pipe material: Copper, CuNi, Carbon steel, Stainless steel, Aluminium Machine type: Industrial machines Process: Flanging Globally the first of its kind, T-DRILL 's revolutionary Flanging Machine F-420e, is by far the most advanced flanging. Faccin Group excels in crafting premium flanging machines, utilising two renowned brands: Boldrini and Faccin, offering an extensive selection of over 30 models for clients to choose from. EFB220 AUTOMATIC TUBE FLANGING MACHINE FOR TUBE DIAMETERS FROM 20 TO 220 MM Powerful machine that makes flanging easy, even with large tube diameters Features: • - 37° and 90°.

## Automated Assembly Machine for Ceramic Flangers

---

### How to Choose Ceramic Forming Machine for Ceramic

As a professional ceramic machine manufacturer, Yutai provides a full range of ceramic forming machines as well as fully automatic ceramic forming production
