

Automatic Optical Cable Retraction and Deployment Device

Automatic Optical Cable Retraction and Deployment Device

Modular Advanced Reel Systems (MARS®)

OCC's Modular Advanced Reel System (MARS®), the industry's first lightweight cable deployment reel system, is designed specifically for the demanding needs

Tool for Retractable Cables for FttH: Retracting, Storing

A tool has been designed for retracting and storing fibre modules from these cables, and jetting the stored modules into branch ducts that make the final

[Read More](#)

Cable Retraction

The cable deflection pulley is fitted with a spring element for cable retraction. Additionally, a releas-able cable locking element is integrated at intervals of 50 cm so that the cable can be blocked if required

[Read More](#)

Understanding Retraction in Fiber Optic Cable

Fiber retraction can cause serious network problems and affect the overall performance of the fiber and cable. This guide will help you understand

Leaders in Electric Latch Retraction , SDC Security

Since 2012, when SDC launched QuietDuo(TM) - the first Motorized ELR Kits to convert mechanical exit devices - we've been "quietly" leading in electric latch retraction (ELR) upgrades for access control.

Automatic cable retractor: order and safety with just one

With an automatic cable reel from Elektron Berlin, you can roll up your cables conveniently and safely. Thanks to automatic retraction, tangled cables

[Read More](#)

Retractable Cable Deployments for OSP & Indoor

This paper introduces and describes in detail an FTTx deployment technique developed with two main goals: ease of installation and reduction of

[Read More](#)

Design of a type of deployable/retractable mechanism using friction

The drum is driven by a motor, which winds the retraction and deployment cables. To balance the driving force, two deployment cables are used symmetrically. The diameters of the tubes

[Read More](#)

Retractor Series

Retractor Series modules feature a precise, variable-speed cable retraction control that provides more than 50 steps of adjustment between 1.5 and 4.0 seconds. The cable extension and retraction

Retractor Series

The Extron Retractor Series is a patented, variable-speed cable retraction and management system that works with AVEdge (TM) 100, Cable Cubby® Series, and select TouchLink® enclosures, as well as the

[Read More](#)

MTPReel - Sumcab Robotics

Untidy cables always pose a safety risk. The automatic cable retraction system MTPReel makes unused cables disappear, thereby reducing tripping hazards in the production hall.
