

Automatic opening for distribution box

Overview

Intelligent Box Opening Devices or "IBODs" are advanced automated systems designed to open boxes and packages efficiently and accurately. The process was invented due to a gap in automation technology that exists in large distribution centers and warehouses. IBOD automatic box openers are some of the top industrial-grade automatic box openers. Sure there are quicker and more efficient ways to open a box, but nothing compares to the magic of an actuating lid. Simplified sorting of e-commerce orders, including poly bags with shipping and receiving sorters.
