Bulgaria s fiber optic communication

Overview

GCN owns and operates a national backbone comprised of more than 3100 km of fiber-optic lines as well as international interconnections to Turkey, Greece, Romania, Macedonia and Georgia. Nearly 400,000 Bulgarians and 140 municipalities in remote areas where connectivity is not well developed will have access to high-speed internet at 1 Gbps over a fibre-optic network and will be covered by a 5G mobile network. Telelink Infra Services specializes in designing, installing, and maintaining both fixed and wireless networks for telecom providers across Europe. Their partnership with leading equipment manufacturers ensures the implementation of innovative and future-proof solutions, addressing the evolving. CETIN Bulgaria, part of CETIN International, is playing a key role in one of the country's most ambitious connectivity initiatives — the Large-Scale Deployment of Digital Infrastructure in the Territory of Bulgaria. This landmark project aims to deliver high-speed broadband access to more than 200. dollars) for the construction of 7,000 kilometers of fiber optic networks across Bulgaria were signed on Tuesday, marking a major step forward in the country's digital transformation.

Bulgaria s fiber optic communication

Expanding Bulgaria's Digital Future with Large-Scale Fiber

The initiative will significantly extend Bulgaria's broadband footprint, improve mobile coverage, and prepare the country for next-generation services. By enabling digital inclusion at scale, CETIN is
