

Busline heat shrink joint box

Overview

Wellele 's heat shrink cable joint cover box is a protective solution used to seamlessly connect and safeguard cables. Alcomets range of heatsrinkable sleeving includes HVBT, BPTM, Cable Caps and more. The connection points between main busbars and sub-busbars are the most vulnerable parts of.

Busline heat shrink joint box

Busbar Junction Box Heat Shrink Box High and Low

It is made of radiation crosslinked polyolefin material with excellent physical, chemical and electrical properties. It is the insulating treatment material where the busbar is connected. It is also suitable for
