Cable Tray Construction Schedule Price

Overview

Cable tray pricing varies significantly based on configuration: ladder-style trays (\$3-12/ft), trough systems (\$8-18/ft), and solid-bottom variants (\$10-25/ft). Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial settings. Manhours below include hauling from storage, layouting and installation of conduit at a height of 3 meters. In power-heavy areas, they prevent failures that would be far more expensive than the tray itself.
