

# **Cable tray climbing wall right angle bend**

## Overview

---

You can buy a manufactured 90 degree bend or make one on a cable tray bending machine but in this video I show you how to make one using a metal bar. This publication is intended as a practical guide for the proper and safe\* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Since the jaws of the bolt cutter drags a layer of zinc across the cut end and forms a protective layer. The radius of the bend, whether horizontal or vertical, can be zero (non-radius), 12 in.
