

# Cable tray line laying wheel

## Overview

---

Heavy duty rollers with zinc plated steel frames are used by medium/high voltage cable laying contractors for placement of power cables directly into the bottom of cable trenches – rollers and cable support guides available for ladder rack, gantry and cable tray applications of. Due to the different designs (plastic, aluminum, steel), roller diameter and cable diameter of max. This is the ORIGINAL- MADE IN THE USA! Need help?

Straight line, bridge, corner, lead-in, manhole entry and suspension cable rollers for pulling cables into trenches, ducts, pits and substations. Our cable laying rollers are of steel construction with zinc plating for general purpose cable installation work in trenches. When wiring across trays, conduits, or outdoor layouts, choosing the right cable roller can prevent wear, guide wires smoothly, and speed up installation.
