

Cable trays at the bottom of the computer room

Overview

An under desk cable management tray is the perfect solution for keeping wires off the floor and out of sight. Easily mountable and spacious enough for power strips and excess cables, these trays help maintain a sleek and organized workstation. Nothing detracts from a clean, minimalist office aesthetic quite like a sprawling mess of charging cables, monitor cords, and power strips cluttering the floor and desktop. Designed for office, studio and workstation environments, our cable trays provide secure routing and support for power, data and AV cables under desks or work surfaces, reducing clutter and improving safety.
