

# **Canada Procurement of Cold Aisle Explosion-Proof Server Racks**

## Overview

---

This procurement concerns the supply and installation of server racks and a cold aisle containment (CAC) solution as part of the fit out. Aisle containment ceilings, walls and end of row doors are designed to help maintain optimal operating temperature in server rooms and data centres in order to lower data centre energy demands and save on energy costs. Easy Rack The Easy Rack fully adheres to the excellent quality and reliability standards of the APC by Schneider Electric brand, adopts an economic design widely recognized by the industry, and seamlessly integrates important rack accessories such as Rack PDUs & Cable Managers. The work includes provision of specialist Rittal racks, a fusible-link cold aisle containment system, project management, and on-site installation.
