

Construction site 6 square millimeter wire distribution box

Overview

Available in two sizes, Q-BOX4 and Q-BOX6, they allow to house up to 12 interlocked socket-outlets or, alternatively, up to 60 DIN modules. Mobile, transportable terminal boards that are especially suitable for powering mobile tools and equipment. The panels are made in a sturdy and handy two-component technopolymer cabinet with a fire-resistant backrest, which allows them to be stored and reused in. BOSECKER construction site power distributors are designed and manufactured in accordance with the manufacturer standard IEC 61439 and user standard IEC 60364. The built-in circuit breaker group ensures working performance and reliability, and is easy to use and safe.
