

Core switch has 28 Ethernet ports

Overview

ECS4120-28T is a high-performance Gigabit Ethernet switch featuring 28 ports, with 24 x GE + 4 x 10G SFP+ ports. Thanks to its -40 ~ 85°C wide operating temperature it can operate reliably in extremely harsh environments. - 16 x Gigabit RJ-45 ports + 4 Gigabit x SFP ports + 8 x Gigabit Combo ports - SFP socket. Users can flexibly choose 10G fiber or copper ports in various quantities to meet their actual deployment needs. The Web/SNMP management provides remote control capability for flexible network management and monitoring options.
