

Cost of laying cable trays along the wall

Overview

TL;DR: Basic wireway systems cost \$8-15 per linear foot, while heavy-duty cable tray installations range from \$12-25 per foot including materials and basic installation. Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial settings. Let's look at cable trays the way buyers eventually do: through total spend, not unit price. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation.
