

Croatia Fiber Optic Cable Laying

Overview

Telemach plans to install 4,000 kilometres of fibre-optic cable across Croatia and is preparing for the commercial launch of the 5G mobile network as soon as the HAKOM regulator allocates the frequency spectrum, the company announced at a press conference in Zagreb on Monday. In October, OIV successfully expanded the OIV DWDM network with two new nodes, thus ensuring the connection of all corners of our country with fiber optic cable, which ensures redundancy and increases service availability. Full Installation Services: From laying cables to setting up routers and firewalls, our installation service covers every aspect of network setup. was founded at the end of 1991 and started with activity at the beginning of 1992. We offer comprehensive telecom solutions—from planning to implementation—with expertise in optical networks and FTTX systems. The company focuses on offering optimal data transport services, including dark fiber solutions and backbone infrastructure to meet the needs of. These include fiber to the home (FTTH), fiber to the premise (FTTP), fiber to the building (FTTB), fiber to the node (FTTN), and fiber to the curb or cabinet (FTTC).
