

ZTP Thermal & Power

Customized 1-to-2 beam splitter

Customized 1-to-2 beam splitter

Custom Beamsplitters

All beamsplitters are custom made per your design. Our interdisciplinary optic team will work closely with you to ensure manufacturability while still meeting stringent

[Read More](#)

Custom Beamsplitters

Excelitas offers a wide array of beamsplitters in plate, cube and custom multi-port configurations. Utilizing our proprietary adhesive-free Activated Covalent Bonding

[Read More](#)

Beam Splitters

A beam splitter as shown above will always lead to a transverse offset of the transmitted beam, which is proportional to the thickness of the used substrate. There are pellicle beam splitters with a very thin

Precision Beamsplitters & Quad-Channel Imaging

Non-polarizing Beamsplitters A non-polarizing beam splitter is used to split light independently of the polarization state. These filters have very small polarity

[Read More](#)

Custom Beamsplitters

Notch Optics produces a variety of beamsplitters, such as plate and cube, Polka-Dot, and Dichroic with a variety of UV, VIS, and IR coating options tailored to your

[Read More](#)

Custom Beam Splitter

A diffractive beam splitter can generate either a 1-dimensional beam array (1xN) or a 2-dimensional beam matrix (MxN), depending on the diffractive pattern on the

1x2 Optical Splitter , Multimode , FIBERONE

Precision Engineering and Custom Flexibility A key feature of the 1x2 Multimode Optical Splitter is the wide range of split ratios available to suit specific network needs, as seen below. This flexibility

[Read More](#)

Beam Splitter Input-Output Relations

Beam Splitter Input-Output Relations The beam splitter has played numerous roles in many aspects of optics. For example, in quantum information the beam splitter plays essential roles in teleportation,

[Read More](#)

Beamsplitters

Customized OEM Beam splitters from Delta Optical Thin Film are designed and manufactured to adhere to any customer requirement or specification for use in the customer's particular application.

Optical Beam Splitters Custom-made To Fit Various

As a highly specialized custom optics manufacturer, we provide very professional IR beam splitters, UV beam splitters, and laser beam splitters to global clients fitting

[Read More](#)

Infrared Beamsplitters

Knight Optical offers tailor-made solutions for infrared beamsplitters, catering to the IR (1 to 20 μ m) wavebands. Our custom-made optical beam splitter range is

[Read More](#)

Optical Beamsplitters , Polarising & Non-Polarising

We offer custom plate and cube optical beamsplitters, either polarising or non-polarising beam splitters, designed to split light into two beams.

[Read More](#)

Precision Beamsplitters & Quad-Channel Imaging

Please contact us to discuss beam splitter designs or custom orders. Our team is experienced in optical design and can help you determine the ideal beam splitter

[Read More](#)

DTS0095

Custom designs combining circulators, polarizing splitters and non-polarizing splitters in the same package are routinely manufactured. Splitters can be made with either fibers permanently attached to

[Read More](#)

Optical Beamsplitters

Thorlabs offers a wide range of optical beamsplitters. Our plate beamsplitters have a coated front surface that determines the beam splitting ratio while the back

// Polarizing Beam Splitter Optics, Custom Optical

We use optical beamsplitters with unpolarized light sources, such as polychromatic. A

light beam splitter is commonly used in applications where polarization state is

[Read More](#)

Beamsplitters

This has become increasingly important as the market for advanced imaging or diagnostic technologies incorporating optical beamsplitters is growing. When designing the customised OEM beam splitter,

Shop Beam Splitters & Passive Optical Splitters

Explore our collection of optical cable splitters and PON splitters for sale. Optical beam splitters are used to split the fiber optic light evenly into several parts at

[Read More](#)

Polarizing Beamsplitters

Polarizing Beamsplitters designed to split light by polarization state rather than by wavelength or intensity are available at Edmund Optics.
