

# **Czech Convergence Switch DML**

## Czech Convergence Switch DML

---

### DML-CZ

Summary: In this paper, we investigate the convergence behavior of the asymmetric Deffuant-Weisbuch (DW) models during the opinion evolution.

## **DML-CZ: The Experience of a Medium-Sized Digital**

Authors survey basic facts about the project: its goals and how they were met, its structure, content and services offered to users, the experience from the first three years of routine

[Read More](#)

## **DML-CZ**

Summary: This paper is concerned with the distributed filtering problem for nonlinear time-varying systems over wireless sensor networks under random link failures. To achieve consensus

[Read More](#)

## **DML-CZ: The Experience of a Medium-Sized Digital Mathematics Library**

The Czech Digital Mathematics Library, one of the local digital mathematics libraries (DML) that have emerged world-wide in the last decade is presented. Authors survey basic facts

[Read More](#)

### **DML**

New documents are being continuously supplied and the integration of DML-CZ into the European Digital Mathematics Library EuDML is being set up.

[Read More](#)

### **DML-CZ**

Based on the convergence of the asymmetric DW model that generalizes the conventional DW model, we first propose a new concept, the separation time, to study the transient behavior during the DW

## **10 September 2024 First Czech switch for high-speed lines**

First Czech switch for high-speed lines On the premises of the company DT - Výhybkárna a strojárna in Prostejov, a presentation of a switch that will be used on the future Czech high-speed railway took
