

# DC Row Header Control Module

From standard **1U** to **8U** sizes to  
fully customized **Non-standard** enclosures.

## DC Row Header Control Module

---

### RowControl

In the terminal you can easily set the double, triple or quadruple row spacing. Thus, you can quite simply adapt the row spacing to the crop - 15 cm, 30 cm, 45 cm, 60 cm or 75 cm with constant lateral

### ControlEdge HC900 IO Modules Specifications

Remote Terminal Panels  
Digital Input Module - AC Voltage type (900G03-xxxx)  
Relay Output Module (900H01-xxxx)  
Terminal Blocks (900TEK-xxxx, 900TBK-xxxx, 900TER-xxxx, 900TBR-xxxx)  
Power Status Module (PSM) (900PSM-xxxx)  
Remote Terminal Panels  
Sales and Service ASIA PACIFIC  
The Power Status Module resides in a local or remote I/O rack containing redundant power supplies. The PSM and second power supply are contained in a rack extension assembly adjacent to the power supply slot position. The PSM module is positioned in a dedicated slot between the two power supplies. Redundant power and the PSM may be used with a Co See more on prod-edam.honeywell AgriExpo

## **HEADER CONTROL & ROW GUIDANCE FOR CORN**

Headsight' row guidance systems provide advanced auto-steer control for corn harvesting. These high-accuracy controls guide the combine down the row,
