

Deep Well Complete Distribution Box

Overview

These DB boxes function as the controlling facility in discharging the incoming effluent from a Septic tank to an appropriate leaching system. Compatible Replacement for Franklin Part# 2823028110 2HP Control Box for Deep Well Pump. When setting up a submersible water extraction system, proper understanding of component assembly is crucial for reliable operation. Begin by ensuring that the casing is securely installed to provide necessary protection against external elements. This Policy describes how INGCO processes your personal data, but it may not address all possible data processing scenarios. It carries a NEMA Enclosures 3 rating, UL listing in the USA and Canada, and a practical layout with four 7/8-inch knockouts, three 1-1/8-inch knockouts, a drain hole, and two mounting holes.
