

Details of the Lithuanian fiber optic cable cut

Overview

On 17-18 November 2024, two submarine telecommunication cables, the BCS East-West Interlink and C-Lion1 fibre-optic cables, were disrupted in the Baltic Sea. The incidents involving both cables occurred in close proximity to each other and near-simultaneously, which prompted accusations from. Finnish and German officials have now launched an investigation into the matter over "deep concerns" the. An undersea data cable connecting Finland and Germany was cut in the early hours of Monday by what was likely an external impact and a nearby link between Lithuania and Sweden was also damaged. The 1,200-kilometer (750-mile) high-speed fiber optic Helsinki-Rostock link serving data centers is.
