

Dimensions of Monaco Lighting Distribution Box

Overview

It describes HA, HK, and LGD series boxes with dimensions ranging from 100-415mm in length, 105-323mm in width, and 75-140mm in height. The XL type low-voltage power distribution cabinet uses domestically designed new components. The enclosure is made of bent steel plates, featuring a compact structure, easy maintenance, and flexible circuit scheme combinations. Plastic Electrical Box, also known as a consumer control unit or electricity control unit. The ZGS series combined transformers, namely American-style packaged substations, are a series of products developed according to the needs. Generally used in places where single-phase power is needed for civilian use. For industrial and mining enterprises, civil buildings, schools, and government.
