White Paper Power Distribution Units (PDUs) in Data Centers

Executive Summary Power Distribution Units (PDUs) are essential components in modern Data Centers, serving as the critical link between power sources and IT equipment. As Data Centers evolve to

[Read More](#)

Electrical Distribution Equipment in Data Center Environments

Electrical distribution equipment is the backbone of the data center as it provides the power path to all of the equipment in the data center, such as IT devices, cooling units, security, and lighting.

ABB Power Distribution for Data Centers

Partner with ABB to power your data center operations 24/7 with solutions that are space-saving, time-saving, energy-saving, cost-saving and infinitely scalable.
