

Dimensions of the concealed electrical box in the home

Overview

Standard electrical box dimensions for European concealed wiring systems are typically 80mm in diameter and 55mm in depth, complying with EN 60670 standards to ensure compatibility and safe installation across EU countries. Whether you are installing outlets, switches, lighting fixtures, or junction connections, box size directly affects wire fill capacity, device fit, and installation quality. Electrical enclosures are boxes that protect your electrical parts from dust, water, and damage.
