

Disable PoE Function on Huijue PoE Switch

Overview

system-view interface gigabitethernet 1/0/0 [HUAWEI-GigabitEthernet1/0/0]undo poe enable. Only electrical interfaces of switch models with PWR or PWH in the device names support the PoE function. The only way to get the injector to "see" that no POE is provided is to unplug the cord from the switch port momentarily. This is probably some hardware defect but I was wondering if a solution exists?

10-09-2018 08:56 PM So I am going to post this since we got. Is that too much to ask?

04-04-2022 04:47 AM Sorry to ask but I have tried this but need more text to explain as it doesn't seem to work for me at the moment.

Disable PoE Function on Huijue PoE Switch

PoE Configuration Commands

Usage Guidelines Before using the PoE function, you can run the display poe device command to check the slots that support the PoE function. If the command output is displayed, the device supports the
