

# **Does the distribution box need to be waterproofed**

## Overview

---

Distribution boxes are a crucial component of the electrical system, responsible for the distribution and management of electricity. While the exterior might appear as a basic enclosure, the internal engineering ensures electrical safety in harsh environments.

## Does the distribution box need to be waterproofed

---

### Understand The Characteristics Of Waterproof Distribution Box

The waterproof cable box is a common type of power distribution equipment, while the plastic weatherproof electrical box is widely used outdoors, in humid, or water-prone environments.
