

Double row distribution box option

Overview

There are several types of double rows distribution box available, each designed to fulfill specific functions within an electrical system. Common types include circuit breakers, switchgear, and distribution panels. All Elucian® Metal Dual Row Consumer Units will come supplied furnished with a 100A Mains Switch, 2 Pole 275Uc (V~) 40kA Type 2 SPD & 100A Connector linking both tiers together. A range of through-hole and surface mount header strips with Tiger Eye™ contacts for high-reliability applications. ABB Mini Center Compact distribution board is the basis for development and growth in meeting all the demands for a successful future in residential, commercial, and infrastructure segments. Medium and Low Voltage Systems from Eaton are highly standardized systems supported by quick configurations, quoting facilities, and fast.
