Double-skin double-armored optical cable

Overview

Cable containing up to 12 optical fibers in loose tube, optical fibers reinforced with two FRP wire and sheathed in HDPE material. Tensile Strength: 2000N

NALTOS® Lite Loose Tube, Gel-Free, Double- Jacket, Double-Armored Cable Features and Benefits

Two jacket layers and two steel tape armor layers Provides superior rodent resistance for direct-buried applications Flexible, craft-friendly buffer tubes Facilitate easy routing in closures Gel-free. Tensile Strength: 2000N Existing customers can access our Customer Support Portal or see. Features: - Low signal loss - High bandwidth - No electromagnetic interface - Small size allowing more fiber in each pathway or conduit - Easy to connectorize Fiber Optic Cables -. Other

GYTA53 is a heavy-duty double-armored, double-sheathed outdoor fiber optic cable designed for extreme environments. It features dual-layer aluminum-polyethylene laminated tape armor and central metal strength members, providing unmatched mechanical protection and strain resistance.
