

Dutch Air-Cooled Switch SFP

Dutch Air-Cooled Switch SFP

Vertiv(TM) SwitchAir , Data Center Rack Cooling Solutions

Network switches, load balancers and routers typically sit at the top and back portion of the rack, away from the cold aisle airflow at the front of the cabinet. This

Switches with SFP ports

The switch receives the signal with the first port and further transmits the signal with the second port. You won't lose speed when the switches divide the data over fiber optics that way.
