

Electro-optical splitter brands

Overview

China is the largest producer of Optical Splitter, with a market share about 50%, followed by North America and Japan, etc. NTT Electronics, Senko, Wooriro, Broadex and Tianyisc are the key manufacturers of industry, and top 10 players had about 20% combined market share. Their expertise in fiber solutions for telecommunications ensures high-quality performance in connectivity technology. Edmund Optics offers plate, cube, pellicle, polka dot, or specialty prism Beamsplitters in a variety of anti-reflection coatings or substrates. Thorlabs offers a wide variety of plate beamsplitters: UV Fused Silica (250 - 1700 nm), IR. With MEET OPTICS search you get direct access to our database of thousands of optical components from providers worldwide. It provides an expert-curated supplier directory, buyer-focused technical background information, and structured selection criteria to support professional procurement decisions.
