

Energy-saving EPON equipment original and genuine products

Energy-saving EPON equipment original and genuine products

Our energy portfolio , Renewable, sustainable energy , E.ON

Find out more about biomass, our CHP sites, offshore wind farms and the development and operations of renewable energy within E.ON in our generation portfolio.

An adaptive two-stage energy-efficiency mechanism for the doze mode in EPON

To improve the energy-saving in the doze mode, a new two-stage mechanism is introduced that the doze sleep duration is extended for longer time with acceptable quality-of-services (QoS)

Products - Epon Golf USA

Established as a subsidiary in 1977, EPON Golf Co. was formed and the EPON brand was introduced to showcase the manufacturing expertise of ENDO, the

[Read More](#)

Lattice based EPON energy-saving scheme analysis

EPON and GPON standards introduced the energy-saving mechanism, but all of them leave the sleep/doze duration to provide flexibility in implementation and operation.

CN102204131B

Along with popularizing of EPON, the quantity of the ONU disposed too increases. Therefore, the power consumption of each ONU cannot be ignored again, and increase power conservation feature and

[Read More](#)

A new ONU-initiated doze mode energy-saving mechanism in EPON

In this paper, we introduce a new ONU-initiated (decentralized) energy-saving mechanism to reduce the ONU energy consumption and guarantee overall QoS metrics in EPON.
