

Ethiopia OLT Optical Line Terminal 100G

INSTALLATION METHOD

Ceiling installation

Straight crossbar

Several types of hanging

lead screw

Wall-mounted

L-shaped wall mounting bracket

Triangular Bracket Wall Mount

Spider Hook

Lower Support Installation

Square Support

W-shaped Support Base

Ground-mounted Support

Overview

GP5810-08 OLT is a highly integrated, large-capacity XG (S)-PON OLT for operators, ISPs, enterprises, and campus applications. 988 technical standard, and can be compatible with three modes of G/XG/XGS at the same time. At the heart of a point-to-multi-point or passive optical network (PON) is the optical line terminal (OLT). Modern OLTs offer communication service providers (CSP) the ability to launch multigigabit services to tens of thousands of subscribers from a single location or just ten. The Nokia Lightspan MF is the industry's first family of software-defined fiber access nodes designed to provide non-blocking delivery of massive scale, high-speed broadband services with 25G PON, 50G PON and beyond. High-Performance 16-Port XGS-PON OLT with 40G/100G Uplink Capability PLANET XGPL-16000 is a high-density 16-Port XGS-PON Optical Line Terminal (OLT) designed for next-generation fiber broadband access networks.

Ethiopia OLT Optical Line Terminal 100G

Optical line terminals

Our SDX 6000 Series of software-defined optical line terminals (OLTs) consists of open and disaggregated access devices that support a broad range of PON
