

Fasten the cable tray buttons

Overview

Always use 2 splice plates per length of tray and SBH and CNH splice nuts and bolts to fasten them in place. EzyStrut splice bolts have a smooth head which should be installed on the inside of the tray's side wall. MILWAUKEE®'s range of cordless fastening tools has been designed to provide comfortable, balanced, and reliable performance. Depending on the corrosion protection used, they can be mounted both indoors and outdoors. The cable tray systems are suitable for use at ambient temperatures of -20°C . 7) Attach threaded rod to the building structure with approved fasteners at 4'-0" OC intervals. The EzyTray Cable Tray system is offered with a full range of accessories to allow you to assemble and work with it onsite.
