

Fiber Bragg Grating Sagnac Ring

Fiber Bragg Grating Sagnac Ring

Switchable and tunable linear cavity erbium-doped fiber

A switchable and tunable erbium-doped fiber laser with a linear cavity based on fiber Bragg gratings embedded in Sagnac rings is proposed and experimentally verified.

Optimization of fiber Bragg grating parameters for sensing applications

Bragg gratings manufactured by several different techniques are compared to demonstrate their suitability for different types of sensing applications. Several application focused examples are also

Bragg Grating Assisted Sagnac Interferometer in SiO₂-Al₂O₃-La₂O₃

In this paper, we demonstrated for the first time the integration of Bragg grating into an SAL PMF and its sensing capabilities when it was inserted in a Sagnac interferometer.

PMF based Sagnac interferometric sensor for

We propose a Sagnac interferometric sensor for simultaneous strain, temperature, and torsion measurement based on a polarization-maintaining fiber (PM

[Read More](#)

Research on lateral pressure sensing based on Sagnac ring

Based on the birefringence effect of polarization maintaining fiber (PMF), a transverse pressure sensor based on Sagnac cascade fiber bragg grating (FBG) was proposed and prepared.
