

Fiber Optic Cable Splicing Test Items

Overview

Low cost fiber optic hand tools, and kits for fiber optic testing, fiber optic connectors. This Applications Engineering Note (AEN 135) explains and recommends standard measurement methods for characterizing optical fiber system performance. This note also provides background information on system link configurations, test equipment and system component considerations that influence. 7mm) - Pack of 10 Elevate your fiber optic installations with our range of precision tools designed for seamless cable termination, splicing.
