

# Fiber Optic Collimator Manufacturer in Peru

## Fiber Optic Collimator Manufacturer in Peru

---

### **Fiber Collimators - lens, collimated beam, focal length,**

Fiber collimators are devices for collimating the light coming from a fiber, or for launching collimated light into the fiber.

### **Fiber Collimators - lens, collimated beam, focal length,**

A fiber collimator is an optical device used to transform the diverging light from an optical fiber into a free-space collimated beam. It consists of a lens that holds the

## Collimators

Collimators that are used to converge light beams are referred to as optical collimators, while those that are used to collimate energy particles are called neutron, gamma, or X-ray collimators.
