

Fiber Optic Flame-Retardant Winding Tube

Overview

This fibre optic cable features a stranded gel-filled loose tube design with up to 144 fibres, with 12-fibre per unit, providing robust protection and high performance. Indoor/Outdoor Flame-Retardant RIO Wrapping Tube Cable (WTC) with SpiderWeb Ribbon® (SWR) Flame-retardant (FR) RIO Wrapping Tube Cable (WTC) with SpiderWeb Ribbon (SWR) is a high-density fiber optic ribbon cable intended for indoor/outdoor network applications where riser-rated products are. They provide very high-speed data transmission over greater bandwidths compared to traditional copper cabling and are also able to carry the signal over much longer distances without signal loss. The cable has a design that ensures operation for more than 3 hours in fires up to 1000 °C. Corning FREEDM® loose tube gel-free interlocking armored cables are flame-retardant, indoor/outdoor, riser-rated cables for interbuilding and intrabuilding backbones in aerial, duct and riser applications. een - Blue - Yellow - Grey - Viol pro erat on) / 4000 (Installation) - (IEC 6079 -1-2.
