OSE Splice Trays

This document describes the installation of optical fiber with both single fiber and/or ribbon fiber splices into Optical Splice Enclosure (OSE) metal splice trays (Figure 1).

[Read More](#)

Fusion Splicing in Fiber Optics

Fusion splicing is more expensive but has a longer life than mechanical splicing. The fusion method fuses the fiber cores together with less attenuation.

Universal Splice Tray Installation Instructions

It is recommended to place the first tray in the lowest position and build out when adding new trays and facing up when open for splicing. Position one of the hinge tabs into the desired position hole. Align

PANDUIT CORPORATION: FIBER SPLICE TRAY AND STACKING

3.1 Install the splice holders, fusion or mechanical to base of FST6 splice tray. 3.2 Mount the splice tray into the stacking unit. 3.3 Routing Fiber - Follow instructions for cable in use when removing cable
